<http://www.LaserTraining.org>

800-435-3131 or 01-305-851-8081

1. Our online programs are available at <http://lasertraining.mindflash.com> .
2. The costs of each program are listed on that page. A summary sheet of the pricing and available discounts is available as a pdf file at <http://www.LaserTraining.org/Administrative/CoursePricing&Discounts.pdf>
3. Select which program you'd like to take first and click on the "buy now" link. You'll be asked for your registration and credit card payment information.
Payment is made via credit card.
(If for some reason there are any problems with this online registration just email, fax or call us with your payment information and we'll enroll you manually).
4. Log in to the site with the user name and password you have selected, and then begin the first in the series for the course you've enrolled in.
Once you've completed the program you can't go back so ensure that you view it the first time to your satisfaction.
5. The course manual and slide handouts will be file transferred to you upon registration as well.
6. Once you have completed the course you will printout the home-study test for the course you took from <http://www.lasertraining.org/Tests.htm> .
7. Complete the registration form and where it asks for registration or serial number you can just write in "Online course".
8. Complete the test and email that and the registration form back to info@lasertraining.org, or fax to 305.946.0232.
9. We'll grade the test and upon successful completion will mail a Certificate of Laser Training to the address you listed at registration.
10. The program you take may make you eligible to also sit for a proctored NCLE Laser Certification exam at some point in the future. Information and qualifications are listed at <http://www.LaserCertification.org> .

I hope this step by step information helps answer any questions. Please email back if you have further questions.
