### **ONLINE COURSES TOO:**

Also see our interactive online accredited courses on the website. Certificates of Laser Training provided.

### **TO SUBSCRIBE:**

Call 800-435-3131 with payment and contact information after you've selected a date, or log onto the website for the Laser Safety VideoConference & subscribe online. [Www.LaserTraining.org](http://Www.LaserTraining.org)

## What about Hands-On Training on our Lasers?

You have two good options. Most hospitals already have their senior laser assistants or biomedical engineers who know how to teach the panel operation and setup of the laser equipment. Combining that capability with your own people, with this accredited didactic presentation will meet both requirements for you.

OR—We do offer complete In-House training programs with hands-on instruction with your own lasers for \$1500 plus travel expenses for one person, which might vary from \$600-\$900 depending on location. If you have the people who can teach the “push button” training yourself, the VideoConference will save you about \$1600.

## VIDEOCONFERENCE IN YOUR FACILITY

# Surgical *L*aser Principles & Safety

A 4 Hour Program

*Meet ANSI and  
JCAHO training  
requirements for  
Staff*

[Www.LaserTraining.org](http://Www.LaserTraining.org)

# LASER TRAINING FOR SURGICAL STAFF

## **MULTIPLE DATES**

**[www.LaserTraining.org](http://www.LaserTraining.org) to view the  
“Seminar Schedules”  
page. Pick a convenient date for your  
facility and subscribe to the  
Video Conference. Please register at  
least a week in advance.**

## **LASER REQUIREMENTS FOR MEDICAL FACILITIES.**

- Each facility MUST appoint a Laser Safety Officer who must develop and maintain the Laser Safety Program.
- Laser Safety Training is required for ALL PERIOPERATIVE STAFF working with or around medical laser systems.
- Required by A.N.S.I. 136.3 “SAFE USE OF LASERS IN HEALTH CARE FACILITIES”, and enforced by JCAHO, OSHA, and various State Agencies.

v090831

## **WHY VIDEOCONFERENCE?**

### **It’s Easy and Inexpensive**

Save both time and money on travel expenses (especially gas and airfares!) and receive the same training for your staff in the convenience of your own facility. It’s really easy and here’s all you need:

- Lecture room large enough for your staff that has digital projection and a screen.
- Computer with a high speed internet connection
- Speaker phone and/or computer microphone & speakers.

This is easy enough that anyone that can web-surf can subscribe and make it work, but you can also ask your AV dept. to help if you like. No specialized Video Conferencing equipment is required.

## **OUTLINE**

### **4 hour program with Breaks**

This covers a broad review of all medical/surgical lasers, safety practices, and ANSI Laser Safety Standards

- Laser & Energy Concepts
- Laser Tissue Interactions
- Laser Safety Practices
- ANSI Laser Safety Standards and program development

**Provider approved by the California Board of Registered Nursing.**

**Provider Number CEP 12386**

## **FEE: Only \$795 !**

This covers your entire staff. You issue your own certificates and credits, or for \$20 per person additional we will issue Certificates of Training accredited for 4.2 Nursing Contact Hours.
