(See the description of these 1-3 day course options on our website for more details. They're listed under both the "Medical/Surgical" courses, and also the "Aesthetic" courses, under Inhouse Training.)

**NOTE on times:** The "Contact Hours" listed here for times are the credits issued, and are actually longer than the time it takes to complete the program - including quizzes. Our CEU credit rules allow 1 credit hour for every 50 minutes of instruction, so a course with 2.0 Contact Hours may be completed in 1 hr 40 minutes. Even with that, people take different amounts of time and these programs allow you to go at your own pace. You may go slower or quicker. Our Contact Hours are based on average times of people taking the program, including reading the written manuals.

*Most of these in-person seminars include an NCLC Laser Certification exam at the option of the attendee, and registration at any of our 2+ day seminars includes one FREE online course of your choosing – for you or a staff member.*

Online courses and Seminars all offer Continuing Education Credits.
